Subject No. 334
Reduction of fees for cattle grazing in the Kudare Kanave State forest.

Summary of discussion.—The fee of two annas per head of cattle grazing in the Kudare Kanave State Forest has recently been raised to 4 annas, but as this is too much for the poor raiyats to pay for the privilege of grazing for such a short time as three months, the levy of a uniform rate of one anna may be ordered.

Reply of Government.—Grazing for 6 months is allowed. The question of reducing the rate will be considered and disposed of on its merits.

Subject No. 335
The raising of the waste weir of the Nonavinkere tank.

Summary of discussion.—The Nonavinkere tank, even when it fills, does not enable all the lands under it being cultivated. Its waste weir may therefore be raised. The salt pans in the bed are fast silting up the tank.

Reply of Government.—This will be enquired into by the Deputy Commissioner.

Subject No. 336
An English school for Nonavinkere.

Summary of discussion.—There are nearly 105 boys reading in the Taluk Branch School at Nonavinkere and they are unable to go elsewhere for the purpose of English education. An English School may therefore be sanctioned.

Reply of Government.—If half the cost is paid, the question will be taken up by the Inspector General of Education.

Subject No. 337
Deputation of 3 constables to keep watch at nights in Nonavinkere.

Summary of discussion.—Since the formation of a Municipality at Nonavinkere, no arrangements have been made to watch the town during nights, as in non-municipal towns and villages. Three constables may be deputed to Nonavinkere town to keep watch at nights.

Reply of Government.—Referred to the Deputy Commissioner for disposal.

Subject No. 338
Grant of permission to use date leaves as fodder for cattle.

Summary of discussion.—Owing to the failure of rains, great scarcity of fodder for cattle was felt in the Tiptur Taluk last year. Free permission to cut date leaves for fodder may be given.

Reply of Government.—This cannot be done. There is no need to change the existing rules and orders which do provide for special permission being given in exceptionally bad seasons.

Subject No. 339
Recovery of temple Inam lands of certain temples at Vignasante.

Summary of discussion.—The Inam lands granted to Narasimhaswami and Balalingeswara temples at Vignasante having passed into the hands of certain raiyats who take the produce for their own use, pooja in these temples is not properly conducted. Early steps may be taken for recovering the lands from those raiyats and restoring them to the temples in question.

Reply of Government.—The subject is under correspondence in the Muzrai Department which will see to its early disposal.
